

Wheat Gluten Information

El Pollo Loco serves citrus-marinated fire-grilled chicken and freshly-prepared entrees, sides and salsas. We're committed to providing our customers with high-quality ingredients, prepared with care. In recent months, we have received numerous requests for information about the wheat gluten content of our foods. Like most restaurants, many of the foods we serve may include wheat gluten.

The Food and Drug Administration (FDA) defines "gluten" as certain proteins found in the grains wheat, barley, rye, and hybrids of those grains (e.g., triticale). Wheat gluten can cause serious health problems in individuals with celiac disease. FDA defines "gluten free" to mean that a food contains <20 parts per million (ppm) gluten. In addition, a "gluten free" food may not contain a gluten-containing grain or an ingredient derived from a gluten-containing grain (e.g., wheat flour) that has not been processed to remove gluten.

For our customers with celiac disease or sensitivity to wheat gluten, we have compiled this list to assist you with your menu choices.

IMPORTANT: Please note, this information provides a list of menu items that are not made with wheat gluten-containing ingredients. However, **El Pollo Loco does NOT claim that any of its foods are wheat gluten free.** El Pollo Loco does not use dedicated chopping boards; fryers/frying oils; utensils; and/or food contact surfaces for wheat gluten-containing foods. We therefore do not guarantee that cross contact with wheat gluten-containing foods will not occur. Depending on the guest's level of sensitivity, this may or may not be a consideration.

The following information is based on current information provided by our approved food suppliers as of the date indicated below. Please be aware that variations in formulation may occur due to changes in suppliers, ingredient substitutions, recipe revisions and/or product production at each of our restaurants. And, as ingredients can change, we recommend that you check back on a regular basis for up-to-date information.

MENU ITEMS THAT DO NOT USE WHEAT
GLUTEN-CONTAINING INGREDIENTS:
