*Dressing not included. See EXTRAS for options. **Texas Only. ***Texas and Lafayette Only.

The nutritional information in this guide is derived from testing conducted in third party, accredited laboratories, information provided by our suppliers and published resources. The nutritional information is based on standard product formulations and serving sizes. All nutritional information is based on average values for ingredients from El Pollo Loco's suppliers and is rounded to meet current federal guidelines. Variation in serving sizes, preparation techniques, seasonal differences, product testing and sources of supply may affect the nutrition values stated for each product. Substitution of ingredients may alter nutritional values. In addition, product formulations may change periodically. You should expect some variation in the nutrient content of the products purchased in our restaurants. WARNING: Cooked potatoes that have been browned, such as French fries, contain acrylamide, a chemical known to the State of California to cause cancer. Acrylamide is created whenever potatoes are browned and is not added to our foods. The FDA has not advised people to stop eating baked or fried potatoes. For more information see www.fda.gov. All ingredients used in El Pollo Loco products contain 0 grams per serving of artificial trans-fats. Some foods contain naturally-occurring trans-fats. In some menu items, when all sources of trans-fat are added together, the value of trans-fat exceeds what can legally be labeled as 0 grams trans-fat per serving.

The allergen information in this guide is based on the standard preparation of our recipes, and does not account for special orders, customizations, or variations from the hand-crafted nature of our food. Some menu items may not be available in all restaurants. Also, certain limited time or test menu offerings may not be included. Variations may occur due to differences in suppliers and food preparation at the restaurant. El Pollo Loco does not claim that any of its foods are free from allergens, including gluten. There is a potential for cross-contamination as individual foods may come into contact with each other during preparation, which would not be reflected in this chart. Suppliers may also prepare ingredients in plants that process peanuts, tree nuts or other allergens, even if those allergens are not reflected on this chart. Customers with allergen sensitivities should consider the potential for cross contamination when dining with El Pollo Loco. For more information on food allergies, contact the Food Allergy Research & Education (FARE) on the web at https://www.foodallergy.org. For additional inquiries, please call 1-800-EPL-4YOU or 1-800-375-4968.

Visit www.elpolloloco.com for updates, changes and additional information.
